

Submissions Procedure - Films in Development and Pre-Production

Kaleidoscope is always on the lookout for well packaged innovative projects with strong scripts and International appeal. As part of Kaleidoscope's mission to support independent film and film-makers, in its first year of operation, KFD part financed eight of its feature titles, including feature films, branded live events, and mainstream documentaries. Sister company, Kaleidoscope Home Entertainment, is an integrated audio-visual content business, with over 100 releases under its belt in just 3 years of operation. When coupled with our numerous releases, Kaleidoscope has become the leading producer and distributor of home-grown films in the UK market.
